

Our Golf Scorecard – Privacy policy

Policy

Our Golf scorecard take your privacy very seriously. We do NOT sell any of the personal data you enter in any of our apps and website. Neither do we collect any data from your devices without your knowledge.

Who?

Our Golf Scorecard is produced and distributed by René Olesen, Nr.sundby, Denmark. We therefore comply with both Danish and European legislation.

If you need to get in contact with us please write an email to info@ourgolfscorecard.com

Which data is used?

Our Golf Scorecard is a webapp used when playing golf. Hence data related to your game and rounds will be stored on your account. If you have no PRO-account, data is only stored on your own phone/device. If you do create a PRO-account then all data needed to recreate your statistics inside the app is stored on our servers. This includes all created players and their bag-stats and all rounds data.

Location data is required for certain parts of this app. In almost all situations your location is not even send to our servers. Only when you start a new live tournament is your location anonymously stored with the tournament. The reason for this is that players can only participate in tournaments nearby to where you are located.

Players bags data includes location data for statistics of shot hit. This data is though only used to measure distances for those shots.

Statistics

We do collect statistics for usage of our apps, websites and rounds played. But data is totally anonymized before being saved in our database.

To monitor usage of our website www.ourgolfscorecard.com we use Google Analytics with IP-anonymization enabled.

Deletion of data

You are always entitled to have all our data about you deleted from our servers. Please note that if you have no PRO-account we do not have any personalized data about you. If you do have an account, you can simply write to info@ourgolfscorecard.com informing the email to which your account was created, and we will delete all of your app-data on our servers.

3rd parties

As mentioned earlier we use Google Analytics to monitor anonymized usage of our website. For Course Editor and in rounds view when entering satellite view of course, we use Google Maps or Bing Maps depending on your settings inside the app. Hence Google or Microsoft will store cookies on your device also.
